Yes ... unless I get the green light from Greg, we should ship without paperwork.

He has asked for more detail regarding the composite repair and is currently reviewing that.

Does this mean we will be shipping without paperwork today?

I will try to send remaining documents for ECN10-563 on Monday ... Just trying to verify that the IIN is acceptable to Transport Canada now.

Attached are the updated word files for the QR-D205-523.

Thanks, David

Hi David.

We have a PO for the D130-701-011 to be shipped out Oct 4th. Will I be getting the rest of the documents for ECN10-563 today or early Monday to keep this on track?

Also, I received the QR and FMS for D205-523. Can you email me the latest version of the electronic QR

so that I can put it in the projects directory since you mentioned that you made changes to it.

Thanks,

Kim

David.

Is this a case where you're releasing the drawings on an ecn but the paperwork for the 9-digit parts hasn't been approved yet and if so when will it be released?

Kim,

Here is the ECN and drawing updates for the EC130 basket changes. I will send the other documents mentioned on the ECN later this week.

Linda/JL,

Sorry for the delay in getting this to you. In actual fact, the change to D4037-3 is fairly small, so I didn't think it would take long to program and manufacture this part. I recommend making just 1 to fill this order, and we will see how this customer makes out.

Importance: High

Please get a copy to JL asap, for re-programming...Oct.4<sup>th</sup> is Monday.!!

Thx Linda

Robbin.

I believe we are on track, but ball is still in my court. I signed the updated drawing on Friday and will momentarily scan and email it to Hawkesbury so that they can get going on manufacturing the 1 new part this is required for October 4th (D4037-3).
